2019 SUMMER THEME DESCRIPTIONS

ART CAMP

Paint like Picasso and express yourself like Andy Warhol in this intensive week of art instruction. Campers will be taught by long-time art educator Steve Novy and explore different art mediums, concepts, and styles. Join us as we learn about famous artists through the ages and experiment with symbolism and raw materials. **Caution: we may get messy!**

COOKING CAMP

Ready, set, mix! Campers will learn the basics of food preparation and making meals. We'll talk about cooking on a budget, cultural cuisines, and which foods keep our bodies strong. Participants will work as teams to prepare easy-to-make dishes just perfect for young chefs.

DANCE CAMP

Feel the rhythm and move to the beat! Local professionals will introduce our kids to the basics of dance fundamentals, body movement, different dance styles, and cultural expression. Campers will also rehearse for a group performance at the end of the week.

PHOTOGRAPHY CAMP

This week will teach participants how to use simple digital cameras and even cell phones to take artistic photos worthy of a museum. Have fun with self-expression and explore the world through a new lens. We will learn best practices in photography and play with various styles and techniques.

SCIENCE CAMP

Grab your lab goggles and think like Einstein in this week of scientific discovery. Participants will be led by Worth Learning Inc. to explore a different field of science each day. Activities will include dissections, rocketry, engineering, physics, bugs and more! Campers are sure to get their PhD in curiosity and fun.

SPORTS CAMP

Get into the game with several of your favorite sports during this week of competition and team spirit. Our young athletes will learn the basics and fundamentals of basketball, volleyball, soccer, disc sports, lawn games, and more! This camp is mostly recreational and designed for beginners.

SURVIVOR CAMP

Enjoy an adventure boot camp just for kids! Our campers will practice outdoor life skills, learn to survive the wilderness, design an escape game, and grow in their leadership and teambuilding. This week will be full of kid-friendly challenges perfect for the next army ranger!

TECHNOLOGY CAMP

Harness your inner engineer and step into the next century with this week of tech learning and fun. Our campers will practice the basics of coding, design small-scale robots, and even play with drones. Lessons will also include maker-space activities and famous inventions throughout history.

THEATRE CAMP

Lights, camera, action! During this week, campers will be given special instruction by local children's theater instructors. Curriculum content will include acting, choreography, prop making, theatrical design (costume and set) plus rehearsal process and performance prep. Parents are invited to a feature demonstration at the end of the week.

TRAVEL CAMP

Join us for an adrenaline rush! Each day of the week is spent on a high-octane field trip, to places like AT&T stadium, Alleycats, UTA Planetarium and the FW Museum. Experience the most exciting places in town with a great group of friends. Campers will also journal their adventures each day.

Information will be available at each camp location regarding specific activities and important reminders. Be sure to ask your Camp Director for more details!
